About Me

I am a student learning full-stack web development. I enjoy creating webpages and building interactive apps step by step.

Education

- **Degree:** B.Tech in Computer Science
- **University:** XYZ University
- **Year:** 2022

Skills

- HTML
- JavaScript
- Problem Solving
- Teamwork

Projects

Student Search CLI App

A terminal-based Node.js application that allows users to search and filter students by name or course. Uses JavaScript, arrays, and functions.

Mini Resume Webpage

This current resume project “ built using pure HTML, it shows personal, education, and project details. A great beginner-friendly project.
